to HTML5

# Elbie Moonga

Full-stack Code Reviewer at Microverse || Freelance Web  
Development Consultant  
Lusaka

## Summary

I am a professional Full Stack Developer with over 5 years of experience. Some of my greatest strengths are consistency, efficiency, and being a team player. Assign a task, and I make it my responsibility to keep up the team spirit to deliver on time. I am a very good communicator and find it's easy for me to relate to other people.

I have consistently demonstrated my capacity to make a positive impact regardless of the situation.

I'm not afraid of failure, in fact, I think it is an essential part of the experimental process that gets you to success. Outside of work, I spend a lot of my free time learning new technologies. I have built demo projects from my current stack of development knowledge in order to enhance my career and grow my experience.

I have experience working remotely with engineers from several countries and developed my soft skills through being a mentor to fellow developers.

I have completed certifications and developed experience in order to deliver good services to whoever is in need of my expertise. How can I be of service to you?

### Current Stack:

- C#
- Ruby
- Ruby on Rails
- JavaScript
- React & Redux
- Git & Git Flow
- HTML
- CSS
- Bootstrap

- PostgreSQL
- SQLite
- RSpec
- Jest

I am currently open to opportunities, feel free to contact at [emoonga1993@gmail.com](mailto:emoonga1993@gmail.com).

My portfolio can be viewed ---> <http://elbiemoonga.me/>

## Experience

### Microverse

2 years 2 months

#### Code Reviewer

March 2021 - Present (1 year 1 month)

Remote

- Provide code reviews for students all over the world by reviewing pull requests on projects done using tools like HTML/CSS and Ruby on Rails, Vanilla Javascript, and ReactJS.
- Provide project feedback and suggest changes based on best programming practices.
- Ensure that students understand curriculum material so that industry-standard coding practices are maintained.

### Student Mentor

February 2020 - Present (2 years 2 months)

Remote

- Assist junior developers in realizing their dreams as software developers.
- Conduct weekly check-ins to advise, review their projects and have general conversations about things happening in the world.
- Share my experiences as a developer and give guides on best practices that I have learned in order to advance in web development.

### Self Employed

#### Full-Stack Developer

January 2015 - December 2018 (4 years)

Zambia

- Built static websites at no cost for several clients to improve skills

- Built an android application called TESA(Tutors Educational System App) to help school teachers manage their lesson plans and teaching schemes.
- Built an android application called Farmers Hub to assist small scale farmers in growing crops by providing training.

---
