Muhammad Asif

Full-Stack Software Engineer (ReactJS/ExpressJS/NodeJS/
MongoDB) | @React Enthusiast

Lahore District

Summary

Goal: To become a Prominent Software Engineer and lead the product development team in a multinational tech company. Confidence to communicate and works in team projects with belief in continuous growth.

Present: Currently, focused on Coding ReactJS and NodeJS backend applications and dreaming of ReactJS Expert. Help companies build complex web applications serving customers with React and modern technologies. Working in a tech company focused on eCommerce-based services.

Skills: React, Redux, JavaScript, NodeJS, ExpressJS, MongoDB (many more)

Belonged from a humble background, feel the honor and pride of holding the degree of University of Engineering and Technology Lahore. The four-year journey was some precious time of my life that completely changed my view. I sensed the difference created during the period.

Experience

Qbatch
