MSDS @ FAST-NUCES || React JS Developer || Data Science
Karāchi

Summary

- Doing Masters in Data Science from Fast-NUCES.
- Junior React JS Developer at Cloud Primero B.V. and currently working on product JOGO.ai
- Recently did certification in Data Science from FTI.
-Learned basics of python and its libraries. Got to know about EDA, Supervised and Unsupervised
Learning, Time Series analysis and currently doing a capstone project related to demand analysis
using time series.
-Ex React Js Intern at Softnate:
-Certified Full Stack (MERN) Developer from Sir Syed University.
Learned React js, Redux, Restful APIs, Node js and Mongodb IN Full Stack Development Course and
practiced the concepts by developing some projects.
- Software Engineer, graduated from NED University
During my bachelors life I learned Data Structures, OOP concepts, Web development, Artificial
Intelligence, Database Management Systems, Operating system, etc. I tried to implement them by
developing projects. Internships helped me a lot in understanding how things work in industry and
what is the practical use of whatever I studied in university.
