PERSONEL PROJECTS

- **RESTAURANT MANAGEMENT SYSTEM**
  - TECHNOLOGY:
    - FRONT-END: JAVASCRIPT + JQUERY + BOOTSTRAP
    - BACK-END : PHP + MYSQL

The application has 2 portals Customer and Admin. The Customer Portal manages order posting and management of orders, and Admin portal deals with menu management, Taking orders and transferring them to kitchen.

- **STUDENT RESOURCE PLANNING SYSTEM (FINAL YEAR PROJECT) (08/2020 - PRESENT)**
  - TECHNOLOGY :
    - FRONT-END : JAVASCRIPT + JQUERY + BOOTSTRAP
    - BACK-END : PHP + MYSQL

The application has 3 modules Student, Teacher and Admin. The admin portal deals with in managing school, student, and teacher (attendance, courses etc.).

- **POINT OF SALE (RESTAURANT MANAGEMENT SYSTEM) (08/2019 - 12/2019)**
  - TECHNOLOGY :
    - FRONT-END : METRO FORMS
    - BACK-END : C#

The application is developed with event driven programming with forms as to develop UI and c# for backend. The application is based on desktop where the user will enter product for customer in the system and the system will print the bill.

- **RECRUITMENT SYSTEM (ONLY FRONT END) (01/2021 - PRESENT)**
  - TECHNOLOGY :
    - FRONT-END : REACT JS

The project includes recruitment system in which we have to hire people according to skills and jobs can be posted. Company's data will be managed with their full record. The application will schedule and manage interviews and so on.

Note : The Project is in progress.
